\$60 fall and spring semester

FedEx and UPS are allowed to make deliveries to student rooms and apartments. We suggest that residents are in their room or apartment at the time of delivery. FedEx and UPS are not allowed to leave packages for residents at the residence hall or apartment office or the area offices. Area offices will not accept packages for residents.

APARTMENTS

Mailboxes are provided at the University Apartments as part of your housing charges. Each apartment is assigned one mailbox for the residents to share and each student resident is issued a mailbox combination upon moving into an apartment. The apartment community also has several package mailboxes. If you receive a key in your mailbox, this indicates you have received a large package and must pick it up in the large mailboxes.

Mail delivery is handled by the U.S. Post Office for Gardens Apartments and by Texas A&M University Mail Services for White Creek Apartments.
